

Preferred Coatings Provider of the Midwest

MSC Floors (Michigan Specialty Coatings) has grown into a leading industrial and commercial flooring provider. With a commitment to building strong customer relationships, our company is dedicated to installing durable, long-lasting floor solutions.

Our headquarters is located in Saint Clair, Michigan with over 30,000 square feet to maintain equipment, test products, and train employees. Coating products and materials are stocked at our warehouse allowing us to quickly and efficiently respond to service calls. With crews stationed throughout Michigan, we can promptly service customers across the Midwest.

INDUSTRY LEADING CAPABILITIES

- **10 crews and over 50 installers** ready throughout Michigan, Ohio, Indiana, and Illinois
- All crews and personnel are uniformed with **Personal Protection Equipment** and arrive in MSC-marked vehicles

- Featured in Coatings Pro Magazine several times
- Multiple awards at the **2017 Coatings Pro Contractor Awards** in New Orleans
- Award recipient at the **2018 Coatings Pro Contractor Awards** in Phoenix

Application Based Solutions

Industrial Solutions

Industrial solutions provide protection to your investments while remaining easy to maintain. Protect the most important assets - your equipment and human resources.

Areas to consider - assembly lines, machine shops, process areas, industrial and manufacturing

Polished Concrete

Polishing concrete hardens the surface and improves environmental health. This process strengthens concrete creating a durable flooring solution that eliminates dust and improves light reflectivity.

Areas to consider - aisleways, storage, distribution, warehousing, high-profile areas, staging areas, manufacturing

Food & Beverage Solutions

Key process areas require floor solutions which are resilient to heavy traffic. Engineered coating systems are available to meet the traffic, chemical, and budget requirements for your facility.

Areas to consider - distribution, staging areas, loading docks, traffic aisles

Static & Ignition Control Systems

Sensitive areas with electronics and combustible compounds are protected with the right ESD and ignition control floor solutions. Electrostatic discharge (ESD) Systems provide superior performance and protection as compared to ESD tile and carpet.

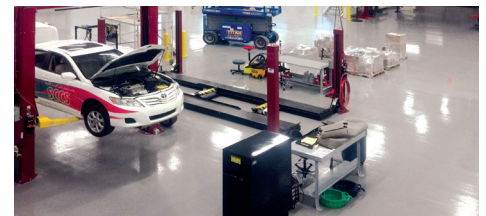

Areas to consider - electronic manufacture, automotive, munitions

High Traffic & Seamless Systems

Where presentation and appearance are key, seamless floors deliver great first impressions. Custom designed high-gloss floors create environments that will be remembered while remaining resilient to heavy traffic.

Areas to consider - aisleways, hangars, showrooms, staging areas, dealerships

Quick-Curing Floor Systems

Fast-Cure coating systems are available, which allow key areas to be back in operation in less than 60 minutes. These solutions provide same-day return to service while eliminating concerns for safety and budget.

Areas to consider - production, assembly lines, break rooms, safety

OSHA & 5-S Safety Coatings

Communicate key information throughout your facility with custom line striping, product and tool placement designations, and safety markings. Easily direct traffic and provide warnings to keep the facility safe.

Areas to consider - assembly lines, warehousing, manufacturing, aisles, traffic signs, staging areas

Tanks & Secondary Containment

Corrosion resistant coatings protect industrial concrete and steel substrates, containments and tanks. Long-service life and protection are benefits to vinyl ester, containment systems.

Areas to consider - paper and pulp, petrochemical manufacture and storage, eco-dip tanks, water and wastewater

Wall Coatings & Painting

Floor to ceiling coating & painting services are available to provide turn-key solutions. Reduce the number of contractors on-site with our full-service, in-house painting division.

Areas to consider - interior and exterior buildings, structures and equipment
