Application Based Solutions

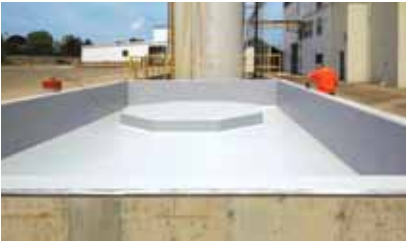

URETHANE & EPOXY MORTAR CONCRETE

Urethane & epoxy mortar provides superior performance under abrasive chemicals, heavy loads & organic compounds. MSC Floors custom engineered solutions protect your facility and assets.

Areas to consider - production facilities, assembly, tool and die, machining, equipment pads

TANK & SECONDARY CONTAINMENT

Corrosion resistant coatings protect concrete containments, storage tanks and steel surfaces. Long service life and solvent resistance are benefits of vinyl ester, epoxy reinforced systems.

Areas to consider - containment and storage tanks, paper and pulp, chemical, military, fuel

STEEL & IRON-FILLED EPOXY TROWEL MORTAR

Steel-reinforced epoxy mortar provides superior protection in areas with extreme exposure. Steel-filled systems are extremely resilient to extreme chemicals, abrasion, and impact exposure.

Areas to consider - production areas, kettle rooms, fermentation tanks, heavy-traffic areas

ELECTROSTATIC DISCHARGE COATINGS

Static & ignition control systems provide superior performance and protection to ESD tile and carpet. Sensitive electronics and combustible compounds are protected with the right ESD solutions.

Areas to consider - electronic manufacture, automotive, munitions, chemical manufacturing

INDUSTRIAL COATINGS, WALL COVERINGS, & EQUIPMENT COATINGS

Industrial coating systems are easy to maintain while protecting your investments. Protect the most important assets - your equipment and human resources with engineered coating solutions.

Areas to consider - machines and equipment, walls, decks and ceilings
