

FAST INSTALLATION OF
SEAMLESS ANTIMICROBIAL
FLOORING, COVING AND WALLS

Is your
workplace
**Safe and
Sanitary?**

Coatings Provide Preventative Maintenance

Concrete flooring needs to be properly coated to remain protected from harboring bacteria as well as wear and tear.

Leaders in Safety Flooring

We provide floor coatings that can offer increased visibility, additional slip-resistance, as well as making your facility much more sanitary.

- ✓ Antimicrobial Options
- ✓ Chemical Resistant
- ✓ Coatings for Floor / Walls
- ✓ Seamless Systems
- ✓ Pedestrian Walkways
- ✓ Easy to Santize

*Making companies like yours
safer for almost 20 years*

Any concrete surface can be made antimicrobial

Our concrete pre-treatments for floors and walls can stop the growth and spread of harmful bacteria.
